REPORT OF
Trustees of Public Library
OF WINCHESTER.

The trustees of Winchester Public Library, in presenting to the town their fourteenth annual report, wish to remind the voters that at the last annual meeting the usual sum of two hundred dollars for the maintenance of the library building and grounds was not appropriated, therefore whatever has been done this year, has been accomplished by the practice of most rigid economy.

A number of books have been placed upon the shelves. Some of them presented to the library and others purchased with the balance of a previous appropriation.

The town may well afford to be more liberal with an institution which has always kept within its appropriations.

Total number days absence in all the schools for the year, 5,554½.

Total number instances tardiness for the year, 625.

The whole number of children in town Oct. 1, 1905, between the ages of 5 and 16, was 398; boys 219, girls 179.

The whole number of scholars attending school two weeks or more, between the ages of 5 and 16, was 416; boys 235, girls 181.

The Board of Education have no knowledge of any children in town, between the ages of 10 and 16, who are unable to read and write.

Number of children in town between 5 and 16, not attending school, 21; boys 8, girls 13.

The number of scholars attending to each study as reported by the teachers is as follows:

Reading 393; spelling 418; writing 374; arithmetic 354; geography 222; grammar 190; U. S. history 95; physiology 51; composition 68; drawing 10; book-keeping 8; English history 28; physics 20; algebra 21; geometry 31.

The schools with some few exceptions have maintained the standard of efficiency during the present year, of years past. This is encouraging and we are

in hopes they may continue in improving.

We are forced again to bring to your attention the irregular attendance of scholars in school. This, all must admit, is one of the greatest obstacles we have to contend with.

We think the number of absences and tardinesses shown by the report, is sufficient so that all who are interested can see the evils in this respect.

It is a duty that parents owe to the community in which they live, and to their children in particular, that so long as schools are provided, that the scholars should be regular and punctual in their attendance.

The Board of Education would recommend that the district raise the following sums for school purposes the coming year:

For support of schools	\$6,000 00
For books and supplies	600 00
For janitor, No. 3	300 00

It has been the policy of the Board to transport, the membership of any school to some more convenient and suitable locality for school purposes, whenever the same could be done with resulting economy, and with no resulting prejudice to either scholar or schools.

This transportation expense has always so far been met, from the savings or economies resulting from such school consolidation. There are still other claims for transportation of scholars which we bring to your attention by article 11, of the school warrant, in regard to which we must say, that any policy adopted by the district regarding individual transportation expenses, must be provided by an extra appropriation, or else these will inevitably result in a shortening of the school year.
